Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form; Activated, Stabilized, Scientifically Compounded, and far more Effective.

In addition to Killing insects by outside contact and as a stomach poison it also Permanently Paralyzes the legs and wings of some insects not hitherto effectively controlled by spraying. Insects so paralyzed that cannot fly or walk do not recover and the U. S. Department of Agriculture considers them dead. (See U. S. Treasury Specification #311). Actual tests have shown effective control of the following stubborn insects:

- | | | |
|------------------------------|-----------------------|---------------------|
| Red Spider | Mealy Bugs | Leaf Hoppers |
| White Fly | Leaf Roller | Aphids (Plant Lice) |
| Green Fly | Rose Chafer | Colo. Potato Beetle |
| Mexican Bean Beetle | Cucumber Beetles | Cabbage Worms |
| Japanese Beetle | Harlequin Cabbage Bug | Thrip |
| Spanish Fly (Blister Beetle) | Codling Moth | Flea Beetle |
| Tomato Worms | | and certain others. |

Dilutions vary from 1 part in 200 to 1 part in 1,000. Triple Kill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue. No soap or spreader necessary; mixes readily with either hard or soft water.

THIS IS THE ONE

If you could sell or use only one insecticide for Vegetables, Flowers and Fruits, This IS The One.

Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form: Activated, Stabilized, Scientifically Compounded, and far more Effective.

In addition to Killing insects by outside contact and as a stomach poison it also PERMANENTLY PARALYZES the legs and wings of some insects not hitherto effectively controlled by spraying. Insects so paralyzed that cannot fly or walk do not recover and the U. S. Department of Agriculture considers them dead. (See U. S. Treasury Specification No. 311.) Actual tests have shown effective control of the following stubborn insects:

Red Spider	Mealy Bugs	Leaf Hoppers
White Fly	Leaf Roller	Aphids (Plant Lice)
Green Fly	Rose Chafer	Colo. Potato Beetle
Mexican Bean Beetle	Cucumber Beetles	Cabbage Worms
Japanese Beetle	Harlequin Cabbage	Thrip
Spanish Fly (Bl or Beetle)	Bug	Flea Beetle
Tomato Worms	Coddling Moth	and certain others.

Dilutions vary from 1 part in 200 to 1 part in 1,000. Triple Kill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue.

No soap or spreader necessary; mixes readily with either hard or soft water.
